SUBJECT Output of Thuringian Mines in 1946

25X1A

ORIGIN
25X1X

This document is hereby regraded to
CONFIDENTIAL in accordance with the
letter of 16 October 1973 from the
Director of Central Intelligence to
the Director of Defense
Services. It is to be
handled as follows:

DIST.25X July 1973
PAGES 2 25X1A
SUPPLEMENT [redacted]

The attached table contains production figures for the more important Thuringian mines for 1946. The first month for which figures appear indicates the start of production in 1946. The figures for the large Maximilianshütte in Unterwellenborn are included in a separate report.

This document contains information affecting the national defense of the United States within the meaning of the Espionage Act, 50, U.S.C. 31 and 32 as amended. Its transmission or the revelation of its contents in any manner to an unauthorized person is prohibited by law.
